October 13, 2009

Dear Parents/Guardians,

In the spirit of "Going Green" I thought it would be beneficial for parents and guardians to receive health information via our website or "virtual backpack". This will help with communication of updated health information and save on paper that at times does not make it to your hands.

The H1N1 flu has been well publicized and I have been receiving "up to the minute" updates from the Department of Public Health. As parents and guardians of our students it would be beneficial for you to be aware of these updates as they come to my attention.

Please continue to check the website for updated information.

First on the agenda:

Middleboro Health Department is planning 2 H1N1 flu clinics for ages 10-24 years of age:

Saturday, Nov. 7<sup>th</sup> from 9-2 pm at Henry B. Burkland School Cafeteria. (41 Mayflower Ave. Middleboro, MA 02346)

Tuesday, Nov. 10<sup>th</sup> from 6-8 pm at Henry B. Burkland School Cafeteria.

**Parents must accompany anyone under 18 and sign a consent form in person.**
